

# ATEX II 3G Heating Blankets for Drums

RUBISOLIS  
Mikroklimate sprendimai

Electric blanket closure detail

The ATEX II 3G electric blankets, wrapped around drums, raise the temperature at 60 C° recommended for applications such as maintaining the temperature of certain materials used in industrial processes.

## SPECIFICATIONS:

- Temperature management: 60°C not adjustable double thermostat (temperature reached by the blanket).
- Optional Atex thermostat for temperature control
- Power supply 230 V AC
- 75°C Thermal fuse
- Silicon-coated aramid inside and outside.
- Internal thermal insulation of 1 cm in not flammable material
- Metallic layer connected to ground
- Power cord 3m with industrial plug ( IEC 309)
- Certification :

Code	Dimension	Power
TI_F.A.TAO	ø 28/35 cm h 42 cm	440W
TI_F.B.TAO	ø 35/43 cm h 42 cm	660W
TI_F.C.TAO	ø 48/56 cm h 42 cm	880W
